## McDonald's Colerain Avenue Colerain Township, OH

Design for McDonald's location on Colerain Avenue had to account for the utilities already serving the newly renovated Northgate Mall. The restaurant was a new build, however its out lot location made utility design and location important. To help maximize parking, underground detention was also included in the project's design.

Bayer Becker also provided construction phase services for the project. Bayer Becker's construction phase specialist served as the Resident Project representative. His duties included, construction document conformance, review of project schedules, attendance at job site meetings, meeting facilitation and documentation, serve as liaison between the project engineer, contractor and owner, coordinate shop drawing and submittal review, regular site visitation, conduct observations of contractor's work, and project punchlist.

Project Stats	
Client:	McDonald's
Location:	Colerain Township, OH
Year:	2012
Market:	<u>Retail</u>
Project Size:	1.00 Acres

### Services Provided:
