Prevention Plans

Bayer Becker is proud to contribute to the ongoing revitalization of Covington, Kentucky with our work on the Kentucky Career Center. The completely remodeled building was once vacant space, but now functions as one of community's greatest employment resources. The state of the art facility has space for 66 employees and parking for 100. Design on the project included a completely new parking lot and stormwater design to optimize drainage. Because of the project's location in the heart of Covington, green spaces were included in the design to serve as buffers from busy Madison Avenue.
