

Harriet, Coram, North & South Alhambra Reconstruction Park Hills, KY

Bayer Becker provided design services to the City of Park Hills for the reconstruction of Harriet, Coram and Alhambra roads. Design for the project included widening the existing roadway and installing new water main and storm sewer as well. Construction on the project was coordinated to maintain scheduled bus traffic and trash removal as well as allow residents access to their homes. In addition to design, Bayer Becker held a public meeting with residents to explain the project as well as to listen to any concerns they may have.

Project Stats
