

Miami University Jay Hayden Baseball Center at McKie Field

Oxford, OH

Bayer Becker provided civil engineering and surveying services for the construction of baseball support facilities adjacent to the existing baseball diamond on the Miami University Oxford Campus. Site development plans were completed for the site including demolition, layout, utility, grading, and erosion control plans.

The new 10,000 square foot facility that houses team support services, such as locker rooms, training areas, and offices for the coaches and trainers. Located along the left-field line and connected with the dugout, this facility also features a museum quality reception area for fans, athletes, coaches, and visitors.
